

# 2023 GRATITUDE REPORT

# Care Champion SPOTLIGHT

## Kenny Outland

### ENGINEERING

45  
YEARS

**Q: Congratulations on celebrating 45 years at Jennie Stuart Health!  
How has your role evolved since joining #TeamJennie?**

"I am your stereotypical "from the ground up" employee. My first role here at JSH was in landscaping, and from there I transitioned to a part-time engineering role, which then led to me accepting a full-time position. In 2009, I was promoted to Supervisor in the Engineering Department, and in 2011, I took my current position as Director of Engineering."

**Q: Kenny, what made you decide to pursue an engineering career in the health care field?**

"When I was younger, my dad was the Director of Engineering for Jennie Stuart Health. I remember during snow days off from school, I would come and help him shovel snow off of the sidewalks. I consider that experience with my dad my first look into the engineering world. My passion only evolved from there. Still to this day I find enjoyment shoveling snow on winter days. I will always remember where it all started. Thanks, Dad!"

**Q: What attracted you to Jennie Stuart Health?**

"Hands down, the people. From the very beginning of my career, it was evident that I have the pleasure of working alongside of so many wonderful individuals each and every day. I also love that the technology in health care is constantly changing so my days are always different. After 45 years, I can confidently say that I genuinely still love what I do."

**Q: How does your department support Jennie Stuart Health's mission in ensuring access to exceptional health care?**

"I think often times the Engineering Department is overlooked. When an employee, patient or visitor enters the hospital doors and the power is working, the water is running and the air conditioning is on, people forget that there is a team of people behind making that happen. My goal as the Director is to ensure that my team of eight repairs and completes any job we are given in a timely manner so we can do just that – keep everything running smoothly. We are the secret weapon to the behind-the-scenes operations."

*"Jennie Stuart Hospital Foundation provides Gratitude to many stakeholders, through giving. Gratitude can transform common days into thanksgivings, turn routine jobs into Joy, and change ordinary opportunities into Blessings. JSH Foundation supports health care in our region; from service to community members and their families to the health care workers while improving our quality of life. One gift big or small impacts others."*

**LORI HARPER**  
Jennie Stuart Health Foundation Board Member

# COMMUNITY IMPACT

In 2023, your Annual Fund contributions have provided much care, support and encouragement for Jennie Stuart patients, employees and providers. A copy of the Foundation's Form 990 may be found on our website.

**In 2023 Tree of Life funds provided patients undergoing cancer treatment with the following:**

- Medication assistance
- Compression sleeves for lymphedema
- Transportation assistance to treatment appointments
- Printed materials for patient support
- Financial assistance for patients experiencing additional barriers to treatment and healing

- In 2023, nineteen (19) Jennie Stuart employees received financial assistance to help overcome an unexpected hardship.

- To date in 2023, 112 members of #TeamJennie have been recognized as Care Champions for going above and beyond in providing exceptional care.
- Since the Care Champion program began in 2020, nearly 500 Jennie Stuart Health providers and employees have been honored by grateful patients for their outstanding service.

***"The [Jennie Stuart Health Foundation] is a great organization and helped me in my time of need."***

***-Roberta Solomon, Tree of Life recipient***

***"I was blessed with this Foundation, and I thank God for it!! At the time I was going through so much, and I can honestly say that I am grateful for what this Foundation did for me!! What a wonderful Foundation and Organization! I am an employee of Jennie Stuart Health. What your Foundation shows is that not only do you care about the patients, but you care about me as well. Thank you all!!"***

***- Anonymous Operation Love Recipient***

## NICU VIEWING

***Pictured: Tim Howard, Beck Logan, Betty Howard and Libby Brim***

The Jennie Stuart Health Foundation held a reception to dedicate a Newborn Hearing Screener in memory of Dr. Ron Howard. Foundation Executive Director, Tracey Clark, opened the dedication by thanking Betty Howard, wife of Dr. Howard, and family for thinking of the Jennie Stuart Health Foundation as a way for friends and family to pay tribute to Dr. Ron. All memorial contributions to the NICU and Well Baby Nursery of Jennie Stuart Medical Center received on behalf of Dr. Howard helped to provide a Newborn Hearing Screener. This new piece of equipment measures how well a baby's hearing nerve and brain responds to sound. Soft earphones are used to transmit clicks or tones into the baby's ears. Per Kentucky law, all babies are required to receive a hearing test before being discharged from the hospital. Janice Johnson, director of JSH Family Services, shared her gratitude for this special gift on behalf of her team. "We are so grateful to the Howard family and all of those who donated to make this happen. This piece of equipment will touch every baby who is born here for years to come", Johnson said.

Leslie Carroll, Jennie Stuart Health Board of Trustees Chair and Foundation board member shared, "Dr. Howard was a valued member of Jennie Stuart's Medical Staff from December 1970 until December 2010. He spent many hours taking care of the precious babies born here and touched many lives through his years of service. We feel honored by the gifts in his memory that have provided this essential piece of medical equipment given in his name." During the dedication, a plaque that is permanently displayed in the viewing area of the NICU and Well Baby Nursery was presented in his memory.

# EVENT SPOTLIGHT

## A Word From Our Board Chair

As the Jennie Stuart Health Foundation rounds out its fifth year, I am very pleased with the growth we have seen. Programs like Care Champions, Operation Love, and Tree of Life are providing hospital employees and patients with support during critical moments. Memorial gifts to the Foundation are making a lasting impact on our community hospital, as highlighted in the recent dedication of the Newborn Hearing Screener celebrating the legacy of Dr. Ron Howard.

While the Foundation continues to grow these existing programs, this has also been a year of firsts. In August, the Foundation officially launched its first capital campaign, with the goal of raising \$1.5 million to support a major expansion of the E.C. Green Cancer Center. Prior to the official launch, the Foundation held its first in-house campaign to create hospital-wide excitement for the project. This in-house campaign far exceeded our expectations, resulting in a tremendous response from the Hospital and Foundation Boards, Administration, medical providers and employees of all departments. I want to say a special thank you to Kelley Workman and Dr. Ratilal Gajera, our outstanding campaign co-chairs, for their tireless and generous leadership. We greatly appreciate all who have already made their pledge or contribution. I encourage you to stay tuned for the exciting announcement of the final total, as well as the opening of the transformed E.C. Green Cancer Center, in Spring 2024.

This has truly been a remarkable year for the Foundation, and the impact we are making is only possible because of our generous donors and community partners. Thank you for partnering with us to make 2023 so successful. Our hospital is stronger because of your support, and we look forward to doing great things together in the coming year.

Warmest Regards,

Breck Cayce

## There's no place like HOME for Exceptional Cancer Care

On Thursday, August 24th, the Jennie Stuart Health Foundation hosted a public event sponsored by Planters Bank to announce the launch of a capital campaign supporting the E.C. Green Cancer Center that is undergoing a comprehensive transformation. Jennie Stuart Health is investing in cutting-edge renovations that will bring together technology, expertise and superior care in a welcoming patient-centered environment. The purpose of the Foundation's capital campaign for the Cancer Center is to provide the 'extras' that will greatly enhance patient comfort, such as a water feature in the waiting space, heated and massaging infusion recliners, a hospitality station and valet service. We are so thankful for the many attendees who came to support this event!

**EMILY PYLE**

E.C. Green Cancer Center Patient  
(Also pictured: Jim, husband of Emily Pyle)

*"I didn't want to travel to Nashville. I just wanted to stay close to home. Because, if I'm going to get top-notch care, why travel anywhere else, but stay here at home?"*

**Eric Lee**  
CEO, Jennie Stuart Health

"This has been an exciting year of expansion for our hospital, especially for the E.C. Green Cancer Center. Your contributions to the Jennie Stuart Health Foundation Capital Campaign will provide our patients with the most welcoming and comforting environment in which to receive cancer care. We are grateful for your support as we grow our services to meet the needs of the communities we serve and ensure that no one has to travel far from home to receive exceptional health care."

## OUR MISSION

To improve quality of life in the communities served by Jennie Stuart Health by ensuring access to exceptional health care and supporting initiatives that promote well-being.

## OUR VISION

To inspire meaningful giving that will allow Jennie Stuart Health to accommodate the growing health care needs of our communities and to expand services in response to advances in medicine and technology.

To donate securely online, please visit

Jennie Stuart Health Foundation  
P.O. Box 608  
Hopkinsville, KY 42241-0608

**Tracey Clark** Executive Director

*"Tribute gifts are such a beautiful way to approach charitable giving. This year, tribute gifts have made a true impact on the Foundation's work. Many donations to the E.C. Green Cancer Center Capital Campaign were made in honor or in memory of a loved one who battled cancer. Because these gifts are such an important cornerstone of the capital campaign, the names of each tribute will be prominently displayed as a reminder of why we continually work to improve cancer care. You will also see in this report the importance of memorial gifts celebrating the legacy of Dr. Ron Howard, which are now providing essential Newborn Hearing Screening for the babies born at JSMC for years to come."*
